

Meet more needs in less time and with fewer resources by connecting client needs directly to donors, tracking organization impact in real-time, preventing system abuse, and building trust through transparent, innovative giving.

HELP

Help clients in need by eliminating barriers that require them to physically come to you to receive help.

ENSURE

Ensure help isn't going to repeat need requests with built-in parameters that mitigate abuse and overtaking by bad actors.

CONNECT

Meet client needs that your organization couldn't normally afford by working together with the community.

TRACK

Easily track your community impact with real-time reports that show what needs are being met through you.

REPORT

Save time and resources with automatic reporting that allows you to organize, simplify, and utilize your data quickly.

SEND

Automatically have statements of giving and end-of-year reports sent to donors when they give.

INNOVATE

Offer donors a new way to give to clients in need with a cause-based giving option that connects them to your cause.

BUILD

Build strong relationships with new donors by allowing them to connect with your mission by directly donating to needs.

COMMUNITY

Show your community you care while naturally increasing trust and recognition through transparent giving.

Working Together to Meet Needs
